## PRTXD Series RTD Transmitters

MODEL	PROBE LENGTH	PROBE TYPE
PRTXD-*4	4"	Fixed
PRTXD-*4-SL	4"	Spring-Loaded†
PRTXD-*12	12"	Fixed
PRTXD-*12-SL	12"	Spring-Loaded†

†Thermowell required for spring-loaded versions

* Insert temperature code	
CODE	RANGE
100C	0 to 100°C
150C	0 to 150°C
100F	0 to 100°F
200F	0 to 200°F
300F	0 to 300°F

### Accuracy

Display: ±0.1% of span, plus sensor error, ±1 digit  
Analog output: ±0.1% of span, plus sensor error  
Sensor: ±0.3°C at 0°C, ±1.1°C at 150°C

### Sensor

100 Ω RTD element, 0.00385 alpha coefficient  
IEC-751 Class B: ±0.3°C at 0°C, ±1.1°C at 150°C  
10 second time constant

### Display (update rate, type, size)

3 readings per second nominal display update rate  
3 digit LCD,  $\frac{1}{2}$ " digit height

### Controls

Non-interactive zero and span, ±10% range  
Test calibration level; 0-100% range

### Loop Supply Voltage

Any DC supply/loop resistance that maintains 8 to 32 VDC at gauge terminals. Minimum 8 V required at gauge terminals at all times for proper operation.  
Reverse polarity protected

### Loop Output Characteristics

4-20 mA output  
See chart below right for loop voltage characteristics

### Test Function

Front panel TEST button when held, sets loop current and display to test calibration level, independent of temperature input, to allow testing of system operation.

### Wiring Connections (see drawing)

3 ft long, 2-conductor 22 AWG cable

### Weight

Transmitter: Approx. 12 ounces  
Shipping weight: Approx. 1 pound

### Material and Color

NEMA 4X ABS/Polycarbonate housing, light gray  
Gasketed rear cover

### Connection and Probe Material

1/8" NPT male hex nipple, 316 stainless steel  
316 stainless steel probe sheath

### Storage Temperature

-40 to 203°F (-40 to 95°C)

### Operating Temperature

-4 to 185°F (-20 to 85°C) at housing

### Installation and Precautions

A thermowell is required with flowing material, pressurized applications, and all applications using spring-loaded versions of the PRTXD.

Install or remove using wrench on probe hex fitting only. Do not attempt to tighten by turning housing or any other part of the transmitter. Due to the hardness of 316 stainless steel, it is recommended that a thread sealant be used to ensure leak-free operation.

### Electrical Connections

The 2-wire connection allows the PRTXD to be used as a temperature display powered by a low-voltage DC source, or as a loop-powered 4-20 mA transmitter. Connect the loop (+) supply to the RED lead and the loop (-) supply to the BLACK lead. Reversing the connections will not harm the transmitter but it will not operate with incorrect polarity.

Select a loop power supply voltage and total loop resistance so that when the loop current is 20 mA, the transmitter will have at least 8 VDC at its terminals. For correct operation and to avoid erratic or erroneous readings, the terminal voltage must not fall below 8 VDC. Too large a loop resistance will cause the output to "limit" or saturate before reaching its full 20 mA output.

The minimum loop supply voltage may be calculated from the formula:

$$V_{min} = 8V + (20mA \times \text{Total loop resistance})$$

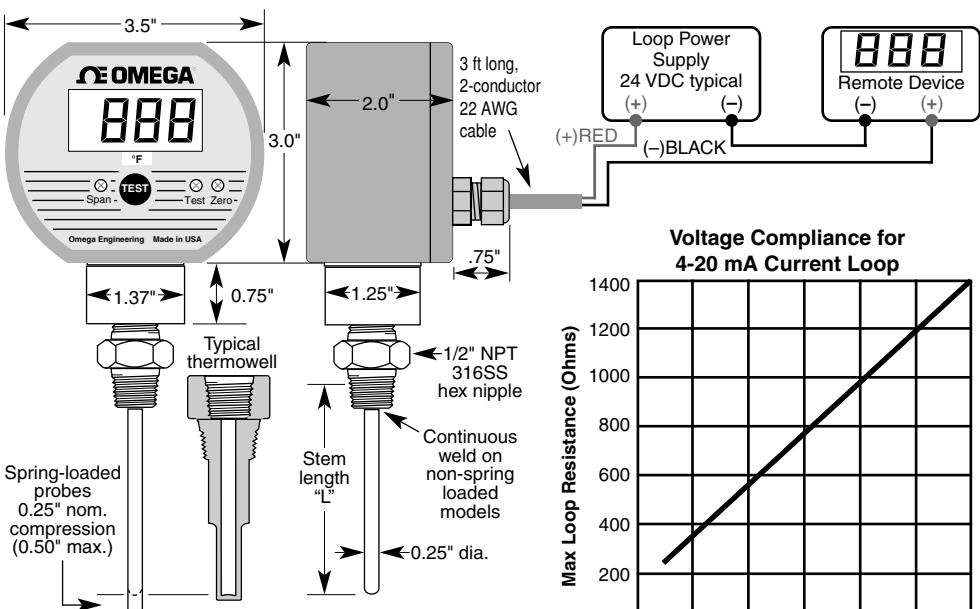

If the terminal voltage falls below about 7.8 VDC erratic operation may occur. This is an indication that the loop supply/resistance may not allow adequate power for reliable operation. This should never occur in normal use. If it does, examine the loop supply and resistance.

### Operation

The PRTXD series is designed for continuous operation. Warm-up time is negligible. The display will show the temperature, and the loop current will be proportional to the indicated temperature.

4 mA = Zero or low end

20 mA = Span, full-scale or high end

It is the policy of OMEGA to comply with all worldwide safety and EMC/EMI regulations that apply. OMEGA is constantly pursuing certification of its products to the European New Approach Directives. OMEGA will add the CE mark to every appropriate device upon certification.

The information contained in this document is believed to be correct, but OMEGA Engineering, Inc. accepts no liability for any errors it contains, and reserves the right to alter specifications without notice. **WARNING:** These products are not designed for use in, and should not be used for, human applications.

## WARRANTY/DISCLAIMER

OMEGA ENGINEERING, INC. warrants this unit to be free of defects in materials and workmanship for a period of **13 months** from date of purchase. OMEGA's WARRANTY adds an additional one (1) month grace period to the normal **one (1) year product warranty** to cover handling and shipping time. This ensures that OMEGA's customers receive maximum coverage on each product.

If the unit malfunctions, it must be returned to the factory for evaluation. OMEGA's Customer Service Department will issue an Authorized Return (AR) number immediately upon phone or written request. Upon examination by OMEGA, if the unit is found to be defective, it will be repaired or replaced at no charge. OMEGA's WARRANTY does not apply to defects resulting from any action of the purchaser, including but not limited to mishandling, improper interfacing, operation outside of design limits, improper repair, or unauthorized modification. This WARRANTY is VOID if the unit shows evidence of having been tampered with or shows evidence of having been damaged as a result of excessive corrosion; or current, heat, moisture or vibration; improper specification; misapplication; misuse or other operating conditions outside of OMEGA's control. Components which wear are not warranted, including but not limited to contact points, fuses, and triacs.

**OMEGA is pleased to offer suggestions on the use of its various products. However, OMEGA neither assumes responsibility for any omissions or errors nor assumes liability for any damages that result from the use of its products in accordance with information provided by OMEGA, either verbal or written. OMEGA warrants only that the parts manufactured by it will be as specified and free of defects. OMEGA MAKES NO OTHER WARRANTIES OR REPRESENTATIONS OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, EXCEPT THAT OF TITLE, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED. LIMITATION OF LIABILITY: The remedies of purchaser set forth herein are exclusive, and the total liability of OMEGA with respect to this order, whether based on contract, warranty, negligence, indemnification, strict liability or otherwise, shall not exceed the purchase price of the component upon which liability is based. In no event shall OMEGA be liable for consequential, incidental or special damages.**

**CONDITIONS:** Equipment sold by OMEGA is not intended to be used, nor shall it be used: (1) as a "Basic Component" under 10 CFR 21 (NRC), used in or with any nuclear installation or activity; or (2) in medical applications or used on humans. Should any Product(s) be used in or with any nuclear installation or activity, medical application, used on humans, or misused in any way, OMEGA assumes no responsibility as set forth in our basic WARRANTY/DISCLAIMER language, and, additionally, purchaser will indemnify OMEGA and hold OMEGA harmless from any liability or damage whatsoever arising out of the use of the Product(s) in such a manner.

## RETURN REQUESTS / INQUIRIES

Direct all warranty and repair requests/inquiries to the OMEGA Customer Service Department. BEFORE RETURNING ANY PRODUCT(S) TO OMEGA, PURCHASER MUST OBTAIN AN AUTHORIZED RETURN (AR) NUMBER FROM OMEGA'S CUSTOMER SERVICE DEPARTMENT (IN ORDER TO AVOID PROCESSING DELAYS). The assigned AR number should then be marked on the outside of the return package and on any correspondence.

The purchaser is responsible for shipping charges, freight, insurance and proper packaging to prevent breakage in transit.

**PATENT NOTICE:** U. S. Pat. No. 6,074,089; 5,465,838 / Canada 2,228,333; 2,116,055 / UK GB 2,321,712 / Holland 1008153 / Israel 123052 / France 2 762 908 / EPO 0614194. Other patents pending.

**FOR WARRANTY RETURNS,** please have the following information available BEFORE contacting OMEGA:

1. Purchase Order number under which the product was PURCHASED,
2. Model and serial number of the product under warranty, and
3. Repair instructions and/or specific problems relative to the product.

**FOR NON-WARRANTY REPAIRS,** consult OMEGA for current repair charges. Have the following information available BEFORE contacting OMEGA:

1. Purchase Order number to cover the COST of the repair,
2. Model and serial number of the product, and
3. Repair instructions and/or specific problems relative to the product.

OMEGA's policy is to make running changes, not model changes, whenever an improvement is possible. This affords our customers the latest in technology and engineering.
