Introduction
Compact rugged and easy to use. Just aim and push the button, read current surface temperatures in less than a second. Safety measure surface temperatures of hot or hard to reach objects.

Instructions
1) Pull and hold trigger (laser pointer is on as default setting) to turn on, LCD display reading & battery icon. Release the trigger and the reading will hold for approx. 15 sec.

How it works
Any object radiates infrared energy if its temperature is above absolute zero. This energy travels at the speed of light in all directions. An infrared thermometer lens collects and focuses the infrared energy into a sensor. The sensor produces a small voltage output, indexed to the target temperature, which is processed and displayed.

Cautions
The infrared thermometer should be protected from the following:
1. Electromagnetic Fields (created by arc welders induction heaters and similar items.)
2. Thermal Shock (caused by large or abrupt ambient temperature changes. Allow 30 minutes for unit to stabilize before use.)
3. Do not leave the unit on or near objects of high temperature.

Operating
Fahrenheit & Celsius Conversion: Press the °F/°C button to switch from Fahrenheit to Celsius readings.

Press the Laser ON/OFF button to turn the laser pointer on or off.

The object being tested should be larger than the spot size calculated by the field of view diagram printed in this manual or on the unit itself.

Laser Pointer
To turn the laser pointer ON, press the LASER key while pressing the Measure key. Repeat the procedure to turn the laser OFF. While the laser is on, you can switch between laser dot and circle by moving a lever in front of the optics. Laser dot is an indication of the center of the field of view. Laser circle is an indication of the perimeter of the field of view.

2) Locating a hot spot: Aim the thermometer outside the area of interest. Scan across the area in an up and down motion until the hot spot is located while holding the activation trigger. The thermometer will continue to read the surface temperature while the activation trigger is depressed.

Note
Holding the trigger at least one second when taking recordings.
**Field of View**
The farther the thermometer is from the target the larger the target area will be. This relationship between distance and target size is normally expressed as the distance to spot, or D:S ratio. At a distance of 6 feet, the “target” spot would be 1 foot in diameter. The thermometer will display the average temperature across the target area.

![Diagram of Field of View](image)

**Distance to Spot size = 6:1**

**Emissivity**
Most organic materials and painted or oxidized surfaces have an emissivity of 0.95. This unit is preset at 0.95. Inaccurate readings will result from measuring shiny or polished metal surfaces. To compensate, cover the surface to be measured with masking tape or flat black paint. Measure the tape or painted surface when the area has reached the same temperature as the material underneath.

**Maintenance**
To clean the lens: Blow off loose particles using clean compressed air. Gently brush remaining debris away with a moist cotton cloth. Do not use solvents to clean the lens. Do not submerge the unit under water.

**Specifications**
- **Temperature Range** -20° to 320°C (-4° to 608°F)
- **Accuracy** ±3°F (±2°C) or 2% reading
- **Repeatability** 2% or 3°F
- **Response Time** 500mSec, 95%
- **Spectral Response** 7-18 μm
- **Emissivity** 0.95
- **Ambient Operating Range** 6° to 40°C (32° to 105°F)
- **Relative Humidity** 10-95% R H noncondensing @ up to 30°C (86°F)
- **Storage Temp** -20 to 65°C (-4° to 150°F) without battery
- **Weight** 0.33 lb.
- **Dimensions** 6.3 X 3.54 X 1.7”
- **Power** 9V
- **Battery Life** 12 hrs. - laser on
- **Distance to Spot** 6:1

**DISPOSAL OF THIS ARTICLE**
Dear Customer,
If you at some point intend to dispose of this article, then please keep in mind that many of its components consist of valuable materials, which can be recycled. Please do not discharge it in the garbage bin, but check with your local council for recycling facilities in your area.
WARRANTY/ DISCLAIMER

OMEGA ENGINEERING, INC. warrants this unit to be free of defects in materials and workmanship for a period of 13 months from date of purchase. OMEGA's WARRANTY adds an additional one (1) month grace period to the normal one (1) year product warranty to cover handling and shipping time. This ensures that OMEGA's customers receive maximum coverage on each product.

If the unit malfunctions, it must be returned to the factory for evaluation. OMEGA's Customer Service Department will issue an Authorized Return (AR) number immediately upon phone or written request. Upon examination by OMEGA, if the unit is found to be defective, it will be repaired or replaced at no charge. OMEGA's WARRANTY does not apply to defects resulting from any action of the purchaser, including but not limited to mishandling, improper interfacing, operation outside of design limits, improper repair, or unauthorized modification. This WARRANTY is VOID if the unit shows evidence of having been tampered with or shows evidence of having been damaged as a result of excessive corrosion; or current, heat, moisture or vibration; improper specification; misapplication; misuse or other operating conditions outside of OMEGA's control. Components in which wear is not warranted, include but are not limited to contact points, fuses, and triacs.

OMEGA is pleased to offer suggestions on the use of its various products. However, OMEGA neither assumes responsibility for any omissions or errors nor assumes liability for any damages that result from the use of its products in accordance with information provided by OMEGA, either verbal or written. OMEGA warrants only that the parts manufactured by the company will be as specified and free of defects. OMEGA MAKES NO OTHER WARRANTIES OR REPRESENTATIONS OF ANY KIND WHATSOEVER, EXPRESSED OR IMPLIED, EXCEPT THAT OF TITLE, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED. LIMITATION OF LIABILITY: The remedies of purchaser set forth herein are exclusive, and the total liability of OMEGA with respect to this order, whether based on contract, warranty, negligence, indemnification, strict liability or otherwise, shall not exceed the purchase price of the component upon which liability is based. In no event shall OMEGA be liable for consequential, incidental or special damages.

CONDITIONS: Equipment sold by OMEGA is not intended to be used, nor shall it be used: (1) as a “Basic Component” under 10 CFR 21 (NRC), used in or with any nuclear installation or activity; or (2) in medical applications or used on humans. Should any Product(s) be used in or with any nuclear installation or activity, medical application, used on humans, or misused in any way, OMEGA assumes no responsibility as set forth in our basic WARRANTY/DISCLAIMER language, and, additionally, purchaser will indemnify OMEGA and hold OMEGA harmless from any liability or damage whatsoever arising out of the use of the Product(s) in such a manner.

RETURN REQUESTS/INQUIRIES

Direct all warranty and repair requests/inquiries to the OMEGA Customer Service Department. BEFORE RETURNING ANY PRODUCT(S) TO OMEGA, PURCHASER MUST OBTAIN AN AUTHORIZED RETURN (AR) NUMBER FROM OMEGA'S CUSTOMER SERVICE DEPARTMENT (IN ORDER TO AVOID PROCESSING DELAYS). The assigned AR number should then be marked on the outside of the return package and on any correspondence. The purchaser is responsible for shipping charges, freight, insurance and proper packaging to prevent breakage in transit.

FOR WARRANTY RETURNS, please have the following information available BEFORE contacting OMEGA:
1. Purchase Order number under which the product was PURCHASED.
2. Model and serial number of the product under warranty, and
3. Repair instructions and/or specific problems relative to the product.

OMEGA's policy is to make running changes, not model changes, whenever an improvement is possible. This affords our customers the latest in technology and engineering.
