It is the policy of OMEGA Engineering, Inc. to comply with all worldwide safety and EMC/EMI regulations that apply. OMEGA is constantly pursuing certification of its products to the European New Approach Directives. OMEGA will add the CE mark to every appropriate device upon certification.

The information contained in this document is believed to be correct, but OMEGA accepts no liability for any errors it contains, and reserves the right to alter specifications without notice.

WARNING: These products are not designed for use in, and should not be used for, human applications.
OMET ENGINEERING, INC. warrants this unit to be free of defects in materials and workmanship for a period of 13 months from date of purchase. OMEGA’s WARRANTY adds an additional one (1) month grace period to the normal one (1) year product warranty to cover handling and shipping time. This ensures that OMEGA’s customers receive maximum coverage on each product. If the unit malfunctions, it must be returned to the factory for evaluation. OMEGA’s Customer Service Department will issue an Authorized Return (AR) number immediately upon phone or written request. Upon examination by OMEGA, if the unit is found to be defective, it will be repaired or replaced at no charge. OMEGA’s WARRANTY does not apply to defects resulting from any action of the purchaser, including but not limited to mishandling, improper interfacing, operation outside of design limits, improper repair, or unauthorized modification. This WARRANTY is VOID if the unit shows evidence of having been tampered with or shows evidence of having been damaged as a result of excessive corrosion; or current, heat, moisture or vibration; improper specification; misapplication; misuse or other operating conditions outside of OMEGA’s control. Components in which wear is not warranted, include but are not limited to contact points, fuses, and triacs.

OMET is pleased to offer suggestions on the use of its various products. However, OMEGA neither assumes responsibility for any omissions or errors nor assumes liability for any damages that result from the use of its products in accordance with information provided by OMEGA, either verbal or written. OMEGA warrants only that the parts manufactured by the company will be as specified and free of defects. OMEGA MAKES NO OTHER WARRANTIES OR REPRESENTATIONS OF ANY KIND WHATSOEVER, EXPRESSED OR IMPLIED, EXCEPT THAT OF TITLE, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED. LIMITATION OF LIABILITY: The remedies of purchaser set forth herein are exclusive, and the total liability of OMEGA with respect to this order, whether based on contract, warranty, negligence, indemnification, strict liability or otherwise, shall not exceed the purchase price of the component upon which liability is based. In no event shall OMEGA be liable for consequential, incidental or special damages.

CONDITIONS: Equipment sold by OMEGA is not intended to be used, nor shall it be used: (1) as a “Basic Component” under 10 CFR 21 (NRC), used in or with any nuclear installation or activity; or (2) in medical applications or used on humans. Should any Product(s) be used in or with any nuclear installation or activity, medical application, used on humans, or misused in any way, OMEGA assumes no responsibility as set forth in our basic WARRANTY/DISCLAIMER language, and, additionally, purchaser will indemnify OMEGA and hold OMEGA harmless from any liability or damage whatsoever arising out of the use of the Product(s) in such a manner.

RETURN REQUEST/INQUIRIES

Direct all warranty and repair requests/inquiries to the OMEGA Customer Service Department. BEFORE RETURNING ANY PRODUCT(S) TO OMEGA, PURCHASER MUST OBTAIN AN AUTHORIZED RETURN (AR) NUMBER FROM OMEGA’S CUSTOMER SERVICE DEPARTMENT (IN ORDER TO AVOID PROCESSING DELAYS). The assigned AR number should then be marked on the outside of the return package and on any correspondence. The purchaser is responsible for shipping charges, freight, insurance and proper packaging to prevent breakage in transit.

FOR WARRANTY RETURNS, please have the following information available BEFORE contacting OMEGA:
1. Purchase Order number under which the product was PURCHASED,
2. Model and serial number of the product under warranty, and
3. Repair instructions and/or specific problems relative to the product.

OMEKA’s policy is to make running changes, not model changes, whenever an improvement is possible. This affords our customers the latest in technology and engineering.

Expansion modules **DO NOT** contain internal jumpers or user settings.

**WARNING!**

*Hazardous voltages exist within enclosure. Installation and service should be performed only by trained service personnel.*

**WARNING!**

*Do not connect or disconnect the expansion module with the power on!*

INTRODUCTION

These external expansion modules add functionality to any DP meter in the field. They can be added at any time and are easy-to-install.

Add a 4-relay expansion module and/or up to two I/O modules. The menu items for these modules do not appear until the module is connected, simplifying the basic menu.

The relay module consists of four 3 amp Form A (SPST) relays.

The I/O module has four digital inputs and four digital outputs per module. External digital inputs can function similarly to the front panel function keys. They can be configured to trigger certain events (i.e. acknowledge/reset alarms, reset max and/or min values, disable/enable all output relays, and hold current relay states), provide direct menu access point, or mimic front panel keys. Digital outputs can be used to remotely monitor DP meter alarm relay output states, or the states of a variety of actions and functions executed by the meter.

RS-232 or RS-422/485 communications modules are also available; refer to the accessories section for ordering details.

Accessories

## SPECIFICATIONS

*Except where noted all specifications apply to operation at +25°C.*

### General (applicable to both models)

<table>
<thead>
<tr>
<th><strong>POWER</strong></th>
<th>Meter M-LINK connection</th>
</tr>
</thead>
</table>
| **CABLE**       | Standard CAT5e cable; provided with module.  
*Note: To ensure optimum performance use only supplied cables.* |
| **CONNECTORS**  | RJ45; identical and interchangeable  
Removable screw terminal blocks that accept 12 to 22 AWG wire. |
| **TIGHTENING TORQUE** | Screw terminal connectors: 5 lb-in (0.56 Nm) |
| **ENCLOSURE**   | ABS-94HB material, UL94HB (Flame-Class Rating) |
| **OVERALL DIMENSIONS** | 2.286" x .924" x 3.624" (W x H x D)  
58.06 mm x 23.47 mm x 92.05 mm (W x H x D) |

### DPA1004 4-Relay Expansion Module

| **RELAYS** | Four Form A (SPST); Rated 3 A @ 30 VDC and 125/250 VAC for resistive loads  
1/14 HP @ 125/250 VAC for inductive loads. |
| **WEIGHT** | 2.4 oz (68 g) |

INSTALLATION

There is no need to remove the expansion module from its case to complete the installation, wiring, or setup of the unit.

⚠️ **WARNING!**

*Do not connect or disconnect the expansion module with the power on!*

External Relays & Digital I/O Connections

The relay and the digital I/O expansion modules DPA1004 & DPA1044 are connected to the meter using a CAT5e cable provided with each module (see Figure 1).

⚠️ **WARNING!**

*Do not connect any equipment other than OMEGA’s expansion modules, cables, or meters to the RJ45 M-LINK connector. Otherwise damage will occur to the equipment and the meter.*

The two RJ45 connectors on the expansion modules are identical and interchangeable; they are used to connect additional modules to the system.

*Note: The jumper located between the RJ45 connectors of the DPA1044 (see Figure 2) must be removed on the second digital I/O module in order for the system to recognize it as module #2.*

Figure 1: M-Link Connector Location on the Meter

Figure 2: Jumper Location
Terminal Block Connections

All connections are made to removable screw terminal connectors located at the front of the module.

Use copper wire with 60°C or 60/75°C insulation for all line voltage connections. Observe all safety regulations. Electrical wiring should be performed in accordance with all applicable national, state, and local codes to prevent damage to the meter and ensure personnel safety.
