

READING CONFIGURATION SETUP (operation example)

Below is a flowchart showing how to navigate through the submenus of the Reading Configuration menu item by pressing the front buttons.

DISPLAY COLOR SETUP (examples)

Example 1:

Output 1 & Output 2: SSR Alarm setup: Absolute, Above, Alarm 2 HI Value "ALR.H" =200, Alarm 1 HI Value "ALR.H"=400 Color Display setup: Normal Color "N.CLR"=Green, Alarm 1 Color "1.CLR"=Amber, Alarm 2 Color "2.CLR"=Red

Display colors change sequences:

		ED	AMBER
0	AL2.H=200	AL1.H=40	

Example 2:

Output 1: Relay, Set Point 1 = 200, Output 2: Relay, Set Point 2 = 200 Alarm 1 setup: Deviation, Band, "ALR.H" = 20

Alarm 2 setup: Deviation, Hi/Low, "ALR.H = 10", "ALR.L = 5"

Color Display setup: "N.CLR"=Green, "1.CLR"=Amber, "2.CLR"=Red

Display colors change sequences:

•	•	•	•	D AMBER
 		200		220

SPECIFICATION

Accuracy:

Resolution:

10 / 1 µV process

Linearization Points:

Temperature Stability:

50 ppm/°C process

Input Types:

Analog Voltage and Current

Voltage:

0 to 10 Vdc

10 $M\Omega$ for 100 mV 1 $M\Omega$ for 1 or 10 Vdc

Current:

10 points

Display: 4-digit, 7-segment LED,

101.6mm (4.00") with red, green and amber programmable colors.

0 to 100 mV, 0 to 1 V (±100 mV),

Input Impedance:

0 to 20 mA (5 Ω load)

Options: Communication

RS-232 / RS-485 or

Excitation 5Vdc @40mA. 10Vdc @60mA

Power Supply:

100-240 Vac ±10%, 50/60 Hz, 22.5 W

Operating Temperature: 0 to 40°C Storage Temperature: -20 to 60°C

Relative Humidity: 0 to 85%

Protection:

NEMA-4x (IP65) Dimensions:

480.0 L x 210.8 W x 95.4 D mm

(18.11" x 8.31" x 3.76") Panel Cutout:

414.3 L x 179.4 W mm (16.31" L x 7.06" W)

Weight:

2,495 g (5.5 lbs)

Approvals:

per EN61010-1

WARRANTY/DISCLAIMER

OMEGA ENGINEERING, INC. warrants this unit to be free of defects in materials and workmanship for a period of **61 months** from date of purchase. OMEGA's WARRANTY adds an additional one (1) month grace period to the normal **five** (**5) year product**

warranty to cover handling and shipping time. This ensures that OMEGA's customers receive maximum coverage on each product. If the unit malfunctions, it must be returned to the factory for evalua tion, OMEGA's Customer Service Department will issue an Authorized Return (AR) number immediately upon phone or written request.

Upon examination by OMEGA, if the unit is found to be defective, if will be repaired or replaced at no charge. OMEGA's WARRANTY does not apply to defects resulting from any action of the purchaser, including but not limited to mishandling, improper interfacing, operation outside of design limits, improper repair, or unauthorized modification. This WARRANTY is VOID if the unit shows evidence of having been tampered with or shows evidence of having been damaged as been damaged as a result of excessive corrosion; or current, heat, moisture or vibration; improper specification; misapplication; misuse or other operating conditions outside of OMEGA's control. Components in which wear s not warranted, include but are not limited to contact points, fuses,

and triacs.

OMEGA is pleased to offer suggestions on the use of its vari-OMEGA is pleased to offer suggestions on the use of its various products. However, OMEGA neither assumes responsibility for any omissions or errors nor assumes liability for any damages that result from the use if its products in accordance with information provided by OMEGA, either verbal or written. OMEGA warrants only that the parts manufactured by the company will be as specified and free of defects. OMEGA MAKES NO OTHER WARRANTIES OR REPRESENTATIONS OF ANY KIND WHATSOEVER, EXPRESSED OR IMPLIED, EXCEPT THAT OF TITLE, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTARILITY AND EITNESS THAT OF TITLE, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED. LIMITATION OF LIABILITY: The remedies of purchaser set forth herein are exclusive, and the total liability of OMEGA with respect to this order, whether based on contract, warranty, negligence, indemnification, strict liability or otherwise, shall not exceed the purchase price of the component upon which liability is based. In no event shall OMEGA be liable for consequential, incidental or special damages.

CONDITIONS: Equipment sold by OMEGA is not intended to be used nor shall it be used: (1) as a "Basic Component" under 10 CFR 21 (NRC) used in or with any nuclear installation or activity; or (2) in medical appli-cations or used on humans. Should any Product(s) be used in or with any nuclear installation or activity, medical application, used on humans or misused in any way, OMEGA assumes no responsibility as set forth in our basic WARRANTY/DISCLAIMER language, and, additionally, purchaser will indemnify OMEGA and hold OMEGA harmless from any liability or damage whatsoever arising out of the use of the Product(s

RETURN REQUESTS/INQUIRIES

Direct all warranty and repair requests/inquiries to the OMEGA Customer Service Department. BEFORE RETURNING ANY PRODUCT(S) TO OMEGA, PURCHASER MUST OBTAIN AN AUTHORIZED RETURN (AR) NUMBER FROM OMEGA'S CUSTOMER SERVICE DEPARTMENT (IN ORDER TO AVOID PROCESSING DELAYS). The assigned AR number should then be marked on the outside of the return package and on any correspondence.

please have the following information available BEFORE charges. Have the following ontacting OMEGA:

I. Purchase Order number under which the product was PURCHASED,

2. Model and serial number of the

product under warranty, and 3. Repair instructions and/or specific problems relative to the product.

FOR **WARRANTY** RETURNS, FOR **NON-WARRANTY** REPAIRS, nformation available BEFORE contacting OMEGA:

Purchase Order number to cover the COST of the repair or calibration

2. Model and serial number of the product, and 3. Repair instructions and/or specific problems relative to the product

MQS2551/1005

OMEGA's policy is to make running changes, not model changes, whenever an improvement is possible. This affords our customers the latest in technology and engineering.

The information contained in this document is believed to be correct, but OMEGA accepts no liability for any errors it contains, and reserves the right to alter specifications without notice

This Quick Start Reference provides information on setting up your instrument for basic operation. The latest complete Communication and Operational Manual as well as free Software and ActiveX Controls are available at www.omega.com or on the CD-ROM enclosed with your shipment.

SAFETY CONSIDERATION

This device is marked with the international Caution symbol.

The instrument is a panel mount device protected in accordance with EN61010-1:2001. Remember that the unit has no power-on switch. Building installation should include a switch or circuit-breaker that must be compliant to IEC 947-1 and 947-3.

SAFETY:

- Do not exceed voltage rating on the label located on the back of the instrument housing.
- Always disconnect power before changing signal and power connections.
- Do not use this instrument on a work bench without its case for safety reasons.
- Do not operate this instrument in flammable or explosive atmospheres.

EMC:

- Whenever EMC is an issue, always use shielded cables.
- Never run signal and power wires in the same conduit.
- Use signal wire connections with twisted-pair cables.
- Install Ferrite Bead(s) on signal wire close to the instrument if EMC problems persist.

MOUNTING

Mounting Big Display Through Panel:

- 1. Using the panel cutout diagram shown above, cut an opening in the panel.
- 2. Remove six screws at the back of Big Display to remove
- 3. Insert the unit into the opening from the front of the panel, so the gasket seals between the bezel and the front of the
- 4. Align back cover to Big Display and reinstall screws.

Mounting Big Display on Bail:

- 1. Mark the location of mounting screws on the flat surface.
- 2. Be sure to leave enough room around the bail to allow for removal and rotation of the display.
- **3.** The display can be rotated for the best viewing angle.

Disassembly Instruction:

Warning: Disconnect all ac power from the unit before proceeding.

- **1.** Remove all wiring connections from the rear of the instrument, by unscrewing the power and input connectors.
- 2. Remove six screws at the back of the display and back cover.
- 3. Remove the Big Display from the panel.
- 4. To remove the Big Display from the bail, unscrew the two knobs at each end of the mounting brackets.

Wire the instrument according to the Input Wiring Connections described in your Operator's Manual.

Warning: Do not connect ac power to your device until you have completed all input and output connections. This device must only be installed by a specially trained electrician with corresponding qualifications. Failure to follow all instructions and warnings may result in injury!

Connect the Main ac Power Connections as shown in the figure below.

CONFIGURATION

MENU Mode:

Flashing display in MENU Mode means you can make your selection by pressing • button. If the flashing display is not a four digit value, pressing • button will always direct the instrument one step backward of the top menu item. The second push on the **v** button will reset the instrument except after the setpoint and the alarms, that will go to the RUN Mode without resetting the instrument. The **②** button will always sequence the instrument thru the menu items.

The **O** button has two functions:

- 1. To save a selected flashing display
- 2. To direct the instrument to the next submenu level

RUN Mode:

- causes the display to flash the PEAK with the corresponding value. Press again to go back to RUN
- causes the display to flash VALLEY with the corresponding value. Press again to go back to RUN Mode.
- causes flashing PEAK or VALLEY to reset corresponding values. Pressing 2 twice will cause the display to flash 5869 and put the instrument into standby, which disables all outputs and alarms. Press one more time to go back to RUN Mode.

Button Functions in Configuration Mode

		ictions in configuration mode
	•	To enter the Menu, the user must first press ②
_		button.
●	•	Use this button to advance/navigate to the next
MENU		menu item. The user can navigate through all the
		top level menus by pressing ②.
		While a parameter is being modified, press ② to
		escape without saving the parameter.
	•	Press the up • button to scroll through "flashing"
		selections. When a numerical value is displayed
		press this key to increase value of a parameter that
0		is currently being modified.
PK/GRS		Holding the b utton down for approximately
(UP)	-	3 seconds will speed up the rate at which the
	_	setpoint value is incremented.
	•	In the Run Mode pressing ② causes the display to flash the PEAK or GROSS value – press again to
		return to the Run Mode. Press the down ♥ button to go back to a previous
	•	
		Top Level Menu item.
	•	Press this button twice to reset the controller to the
		Run Mode.
	•	When a numerical value is flashing (except setpoint
0		value) press ② to scroll digits from left to right
TARE		allowing the user to select the desired digit to
(DOWN)		modify.
(50,000)	•	When a setpoint value is displayed press ♥ to
		decrease value of a setpoint that is currently being
		modified. Holding the ♥ button down for
		approximately 3 seconds will speed up the rate at
		which the setpoint value is decremented.
	•	In the Run Mode pressing ⊙ causes the display to
		flash TARE value to tare your reading (zeroing).
	•	Press the enter 2 button to access the submenus
		from a Top Level Menu item.
	•	Press ② to store a submenu selection or after
		entering a value — the display will flash a 5 t R d
ENTER		message to confirm your selection.
	•	To reset flashing PEAK or GROSS press 2.
	•	In the Run Mode, press ② twice to enable
		Standby Mode with flashing 5 to 5.

Reset: Except for Alarms, modifying any settings of the menu configuration will reset the meter prior to resuming Run Mode.
