

ISA-GPIB

Very High Performance IEEE-488.2 Interface Card for ISA Bus

Model ISA-GPIB

\$299

- ✓ Over 1 Million Bytes Per Second Transfer Rate
- ✓ On-Board 1024 Word FIFO
- ✓ Installation Software Included

The ISA-GPIB IEEE-488 interface converts any ISA bus personal computer into an instrumentation control and data acquisition system. Connect up to 14 instruments using standard IEEE-488 cables such as the C488-2M, 2 meter IEEE-488 interface cable. The ISA-GPIB is designed around an industry standard GPIB chip. Equipped with an ISA-GPIB, a personal computer

can control GPIB instruments, gather data from GPIB test equipment and become a data acquisition station in a GPIB system.

Greater than 1 MB/SEC Transfer Rates

The ISA-GPIB transfers data over the GPIB at rates in excess of 1 million bytes per second using the maximum IEEE-488 specification cable length (2 meters times the # of devices). A 1024 Word FIFO buffer and the advanced REP-INSW ISR transfer method provide all the horsepower required to achieve the highest possible rates.

Controlled by OMEGA's advanced High Speed State Machine Bus Manager, the GPIB chip and FIFO buffer are able to absorb all the information coming from the highest speed instruments. The high speed state machine provides

byte-to-word packing and unpacking and since words carry twice the information bytes do, packed data requires fewer bus cycles to transfer the same GPIB information.

IEEE-488.2 (GPIB) Compatibility

The ISA-GPIB adheres to ANSI/IEEE Standard 488-1978. Often referred to as the IEEE-488.2 bus, GPIB bus or HP-IB bus, the GPIB (General Purpose Interface Bus) is a standard for instrumentation communication and control for instruments from manufacturers the world over. The GPIB provides handshaking and interface communications over an 8 bit data bus employing 5 control and 3 handshake signals.

Configuration

The ISA-GPIB is easy to install. Select a base address, plug in the ISA-GPIB and run the installation software then start communicating. The installation software automatically configures the interrupt level of the ISA-GPIB. The ISA-GPIB does not use DMA in favor of the superior REP-INSW high speed transfer.

Windows NT, Windows 98 Windows 95, Windows 3.1 and DOS Compatibility

The ISA-GPIB hardware supports many operating systems and languages. Your programs run without modifications required to the GPIB-Library commands. The language interface is standard for a given language in all operating systems.

GPIB Library

The GPIB Library includes complete Windows Language programming support. You receive installation software and complete DOS, Windows 3.x, Windows 95, Windows 98 and Windows NT language drivers.

The GPIB Library for Windows is a Dynamic Link Library (DLL). It can be used with most Windows programming languages including Microsoft Visual C++ and C, Visual Basic, Borland C/C++, Watcom C and Pascal.

The GPIB Library is modeled after the National Instruments Library. As of the time of this writing, the Library is syntactically and functionally identical with the NI-488.2 library. This means that a program written for the NI-488.2 library may be recompiled for the GPIB Library and will compile, run and function without error in exactly the manner it did when compiled and run with the National Instruments software.

Features

- IEEE 488.2 Standard Interface Complete
- Talker/Listener/Controller
- Industry Standard 16 Bit ISA Bus
- Data Transfer Rates Over 1Mega Bytes/Sec
- REP-INSW Block Transfer 1024 Word FIFO Buffer
- High Speed State Machine Bus Manager
- RF Shielded IEEE-488 Cable Connector
- 7 Interrupt Lines, Shared Interrupt Capability
- Transparent Interrupt Enabling/Disabling

Specifications

The ISA-GPIB is compatible with IEEE-488.1 and IEEE-488.2 specifications.

Transfer Rate: >1Mbyte/sec

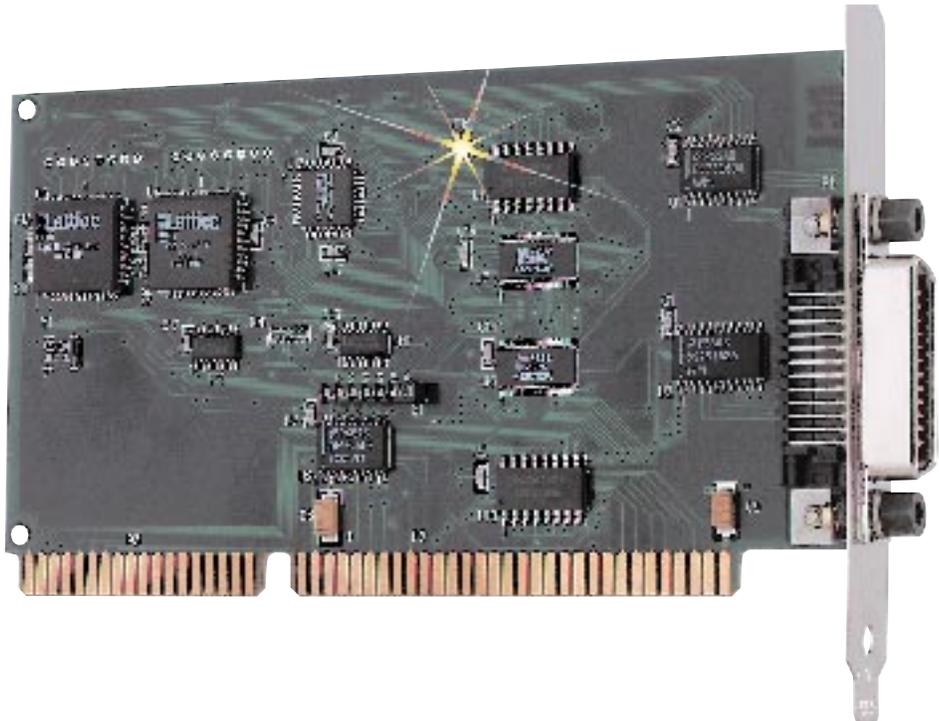

Power: 5 Vdc @ 350 mA typical

Dimensions: 88.9 x 161.9 mm (3.5 x 6.375")

I/O Connector: IEEE-488 standard 24 pin

Operating Temp. and Humidity: 0 to 60 °C @ 10 to 90% RH

Storage Temp. and Humidity: -40 to 100 °C @ 5 to 90% RH

To Order (Specify Model Number)

Model No.	Price	Description
ISA-GPIB	\$299	High speed IEEE-488.2 interface board for ISA bus
C488-2M	59	2 meter IEEE-488 cable

ISA-GPIB comes with GPIB-Library complete software support and complete operator's manual
Ordering example: ISA-GPIB card, C488-2M cable and OMEGACARESM 1-year extended warranty for ISA-GPIB (adds 1 year to standard 3-year warranty) \$299 + 59 + 30 = **\$388**

More than 100,000 Products Available!

• Temperature

Calibrators, Connectors, General Test and Measurement Instruments, Glass Bulb Thermometers, Handheld Instruments for Temperature Measurement, Ice Point References, Indicating Labels, Crayons, Cements and Lacquers, Infrared Temperature Measurement Instruments, Recorders Relative Humidity Measurement Instruments, RTD Probes, Elements and Assemblies, Temperature & Process Meters, Timers and Counters, Temperature and Process Controllers and Power Switching Devices, Thermistor Elements, Probes and Assemblies, Thermocouples Thermowells and Head and Well Assemblies, Transmitters, Wire

• Flow and Level

Air Velocity Indicators, Doppler Flowmeters, Level Measurement, Magnetic Flowmeters, Mass Flowmeters, Pitot Tubes, Pumps, Rotameters, Turbine and Paddle Wheel Flowmeters, Ultrasonic Flowmeters, Valves, Variable Area Flowmeters, Vortex Shedding Flowmeters

• pH and Conductivity

Conductivity Instrumentation, Dissolved Oxygen Instrumentation, Environmental Instrumentation, pH Electrodes and Instruments, Water and Soil Analysis Instrumentation

• Data Acquisition

Auto-Dialers and Alarm Monitoring Systems, Communication Products and Converters, Data Acquisition and Analysis Software, Data Loggers Plug-in Cards, Signal Conditioners, USB, RS232, RS485 and Parallel Port Data Acquisition Systems, Wireless Transmitters and Receivers

• Pressure, Strain and Force

Displacement Transducers, Dynamic Measurement Force Sensors, Instrumentation for Pressure and Strain Measurements, Load Cells, Pressure Gauges, Pressure Reference Section, Pressure Switches, Pressure Transducers, Proximity Transducers, Regulators, Strain Gages, Torque Transducers, Valves

• Heaters

Band Heaters, Cartridge Heaters, Circulation Heaters, Comfort Heaters, Controllers, Meters and Switching Devices, Flexible Heaters, General Test and Measurement Instruments, Heater Hook-up Wire, Heating Cable Systems, Immersion Heaters, Process Air and Duct, Heaters, Radiant Heaters, Strip Heaters, Tubular Heaters
