Comes complete with operator’s manual.
“G” models have rib-guided floats; “P” models have pole-guided floats.
Weights and maximum pressure shown are for both water and air models.
For 5-point NIST calibration certificate add suffix “-NIST 5PT” to model number or suffix “-NIST 10PT” for 10-point calibration, for additional cost.
Ordering Examples: FL605P, flowmeter for water with pole-guided float, 61 GPM max flow rate, 2 NPT fitting and 125 psi max pressure.
FL611G, flowmeter for air, 8.2 SCFM maximum flow rate, ½ NPT fitting and 250 psig maximum pressure.
