“-A” dimension at the end of the part number: The level sensor is offered in six standard guide lengths from 41 to 122 cm (16 to 48”). The 20 mA set point is placed at 19 mm (0.75") below the mounting plug, and the 4 mA set point is placed at 48 mm (1.9") above the guide stop. The space above and below these set points are dead zones.
