Portable Thermocouple Temperature Controller

- Portable, Plug and Play
- Easy-to-Use Digital On/Off Controller
- Type J Thermocouple Mini Connector Input
- 5°C (9°F) Differential
- Audible Alarm
- Operating Exposure Temperature -10 to 55°C (-14 to 131°F)
- 1.8 m (6') Input Power Cord with Standard Plug (120 Vac, NEMA 5-15; 240 Vac, NEMA 6-15)
- Output Receptable (120 Vac, NEMA 5-15R; 240 Vac, NEMA 6-15R)
- Average Accuracy of ±1% FS
- 120 or 240 Vac
- 15 A Capacity
- For Indoor Use

The CN-TOT portable thermocouple temperature controller is designed for indoor, general purpose use. It can control the temperature of small tanks, drums, pipes, intermediate bulk containers (IBCs), and other objects that require automatic control.
