Picomag
The smart plug-and-play flowmeter for utilities
Flow metering in a pocket-sized format
For the reliable measurement of conductive liquids

Are you looking for space-saving flow and temperature measuring technologies? Are you faced with the need to use cost-efficient devices for your plants? Or do you have to comply with specifications or legal regulations with even more stringent process control at numerous measuring points?

Yes? Then our new Picomag offers exactly what you need!

- Reliable measuring and monitoring of industrial water, cooling water, warm water or rinsing water
- Simultaneous measurement of flow, temperature and conductivity
- Time-saving device configuration even in difficult to reach places thanks to Bluetooth connectivity
- Easy data access via intuitive SmartBlue App
- Flexible integration into all fieldbus systems via IO-Link

Intuitive commissioning and operation
- Wireless and secure access to all device data by use of SmartBlue App via Bluetooth
- Backup function for saving and transferring of configuration data (e.g. to other devices)
- Export configuration as PDF report

Optimal system integration (plug-and-play)
- Numerous configurable inputs and outputs (current, pulse, voltage or switch outputs)
- IO-Link for seamless integration into established fieldbus systems

Robust and compact housing
- High degree of protection (IP65/67)
- Immune against pipe vibrations: high shock and vibration resistance

Fast and secure diagnostics
Clear and unambiguous displays of warning and alarm messages

Installation
No inlet/outlet runs required

User-friendly display
- Large, clearly arranged display field (in color)
- Automatic orientation of the screen
- Display of flow rate, totalizer, temperature or conductivity (freely selectable)

Unique knock functionality
- To get a quick overview of the configured parameters
- To change Bluetooth status on-site
Flow measuring technology in a pocket-size format

**Intuitive operation in the field via Bluetooth and SmartBlue App**
- Wireless configuration and data retrieval for difficult to access installation sites
- Simple and fast navigation through device and diagnostic functions via SmartBlue App
- Available for Android and iOS
- Range up to 10 meters

**Optimum system integration via IO-Link**

- Compatible with all standard fieldbus systems
- Comprehensive data access via the control room
- Simple parameterization without additional tools
- Automatic configuration after device replacement
- Easy wiring
- Industry 4.0 ready

SmartBlue App
Available for iOS and Android
The Picomag measuring system fulfills the EMC requirements according to IEC/EN 61326. It also conforms to the requirements of the EU and ACMA directives and thus carries the CE and the ACMA mark.

| **Operation** | • SmartBlue App for smartphone or tablet (Bluetooth)  
• IO-Link for operation via process control system |
| **Material** | Housing: 1.4404/316L, 1.4409/CF3M  
Measuring tube: PEEK  
Electrodes: 1.4435/316L  
Process connection: 1.4404/316L  
Display: polycarbonate  
Seals: FKM |
| **Power supply** | DC 18 to 30 V |
| **Process temperature** | –10 to +70 °C (14 to +158 °F), temporarily up to +85 °C (+185 °F) |
| **Degree of protection** | IP65/67 (Type 4 enclosure) |
| **In-/outputs** | 2 freely selectable in-/outputs: Current outputs (4–20 mA), pulse/switch output, voltage output (2 to 10 V), IO-Link, status inputs (e.g. for a totalizer reset) |
| **Communication** | Via Bluetooth or IO-Link |
| **Nominal diameter** | DN 15 (½”), DN 20 (¾”), DN 25 (1”), DN 50 (2”) |
| **Measured variables** | Volume flow, temperature, conductivity (temperature-compensated) |
| **Process connections** | Standard: external thread (G½”, G¾”, G1”, G2”)  
Optional: adapter sets for internal (G) and external (R, NPT) threads, Tri-clamp, Victaulic |
| **Measuring range** | • DN 15 (½”): 0.05 to 25 l/min (0.01 to 6.6 gal/min)  
• DN 20 (¾”): 0.1 to 50 l/min (0.03 to 13.2 gal/min)  
• DN 25 (1”): 0.2 to 100 l/min (0.05 to 26.4 gal/min)  
• DN 50 (2”): 1.5 to 750 l/min (0.4 to 198.1 gal/min) |
| **Inlet/outlet run** | Not required (0 × DN) |
| **Process pressure** | 16 bar (232 psi) |
| **Max. measured error** | Flow: ±0.8% o.r. ± 0.2% o.f.s. (of full scale); temperature: ±2.5 °C (±4.5 °F) |
| **Repeatability** | Flow: ±0.2% o.f.s.; temperature: ±0.5 °C (±0.9 °F); conductivity: ±5% o.r. ± 5µS/cm |
| **Approvals** | Drinking water approval (in prep.), UL listed (Underwriters Laboratories Inc.) |
